

Field Trips and Cultural Activities for a Total Immersion in the Language and Culture of Ancient Rome

The *Istituto Italiano di Studi Classici - IISC* (Italian Institute of Classical Studies) offers three different experiences towards rediscovering the places, protagonists, and atmosphere of ancient Rome.

Our proposals allow you to organize your trip in various ways, structured according to the needs of the group, during two or three days of the week, which can vary according to the following calendar:

PERIOD A: October 1st - January 31st

Options: Tuesday, Wednesday, and Thursday

PERIOD B: February 1st - May 31st

Options: Monday, Tuesday, and Wednesday

LESSONS

Our lessons help students approach the language of ancient Rome in an entirely new manner, using it as a living language.

The participants are stimulated in actively using the language from the first simple sentences that are addressed to them. In fact, the professors will only speak Latin, through an inductive-contextual method, which promotes a direct use of the language as a method of teaching and learning.

A totally “Latin” environment is therefore created, where an overall integration facilitates learning the forms of the language and helps overcome the abstractness of theoretical studies, offering students an engaging and passionate experience of the Latin language, authentically intended as the language to use to express oneself and communicate with others.

CULTURAL FIELD TRIPS

By rediscovering Latin as a language and a form of active communication, students can consciously appreciate its powerful and eternal vitality, right in the most significant locations of ancient Rome.

Walking through the Imperial Fora or inside the Colosseum, they are accompanied in experiencing the atmosphere of Romanity in the same language used thousands of years ago, while directly hearing, from the voice of the authors of ancient literature, facts and stories that then become more familiar and tangible, as if they were coming back to life while they progress.
